

Facts Regarding Child Grooming, Sextortion and Underage Exposure to Pornography

The average age of first exposure to online pornography is 12 though children as young as age 7 are seeing it

In many child sexual abuse cases, pornography is used to desensitize or “Groom” the child

1 in 4 victims of Sextortion are under 13 years of age when threatened

2 in 3 victims were girls threatened before the age of 16

We, as adults, are just becoming comfortable enough with the understanding that this is happening to all of our children.
